Directors' report

for the year ended 31 December 2022

The Directors present their report on the affairs of Central Securities Clearing System Plc ("the Company" or "CSCS") and its subsidiary (together "the Group"), together with the annual consolidated and separate financial statements and independent auditor's report for the year ended 31 December 2022.

Legal form

The Company was incorporated on 29 July 1992 as a Private Limited Liability Company and effectively commenced business operations on 14 April 1997. The Company transmuted to a Public Company following the resolution of its shareholders at its Annual General Meeting of 16 May 2012.

Principal activities and business review

The Central Securities Clearing System Plc is a Financial Market Infrastructure (FMI) Company that undertakes the business of depository, clearing and settling of securities traded in the Nigerian Capital Market. The Company was licensed by the Securities and Exchange Commission and operates a computerized depository, clearing, settlement and delivery system for transactions in shares and fixed income securities listed/traded on the Nigerian Exchange Limited, NASD OTC Exchange or any other authorized/organized Securities Trading Platform in the Nigerian Capital Market. CSCS was licensed by the Securities and Exchange Commission as an agent for Central Depository, Clearing and Settlement of transactions in the capital market. CSCS keeps and maintains an electronic book-entry record of all securities to facilitate the safekeeping and easy transfer of securities between parties during a trade.

The Company also acts as a depository for Federal Government of Nigeria (FGN) Bonds, Municipal and Corporate Debt instruments. The Company has one (1) subsidiary company namely: Insurance Repository Nigeria Limited and one (1) associate Company - NG Clearing Limited. Insurance Repository Nigeria Limited was incorporated in Nigeria and was yet to commence operations as at 31 December 2022. Its principal objective is to enhance the record keeping of insurance data and policies.

Operating results

Highlights of the Group and Company's operating results for the year are as follows:

	Group 31 December 2022	Company 31 December 2022	Group 31 December 2021	Company 31 December 2021
<i>In thousands of Naira</i>				
Total operating income	11,515,320	11,515,320	10,469,020	10,469,020

Directors' report

for the year ended 31 December 2022

Auditor

Messrs. KPMG Professional Services, having satisfied the relevant corporate governance rules on their tenure in office have indicated their willingness to continue in office as auditors to the Company in accordance with Section 401 (2) of the Companies and Allied Matters Act (CAMA) 2020. Therefore, the auditor will be re-appointed at the next annual general meeting of the Company without any resolution being passed.

BY ORDER OF THE BOARD

Charles I. Ojo
Company Secretary
Central Securities Clearing System Plc
FRC/2014/NBA.00000006051
23 March 2023

Audit Committee Report

TO MEMBERS OF CENTRAL SECURITIES CLEARING SYSTEM PLC

In line with the provisions of Section 404(4) of the Companies and Allied Matters Act (CAMA) 2020, we the Audit Committee hereby state as follows:

- That we have reviewed the audit plan and scope, and the Management letter on the audit of financial statements of the Company.
- That the audit plan and scope for the year ended 31 December 2022 are adequate in our opinion.
- That the accounting and reporting policies of the Company conform to legal requirements and ethical practices.
- That the Internal Control and Internal Audit functions were operating effectively.

Mr. Nornah Awoh
Chairman, Audit Committee
FRC/2021/003/00000022526
23 March, 2023

Members of the Committee

- 1 Mr. Nornah Awoh - Chairman
- 2 Mrs. Fiona Ahimie - Member
- 3 Mr. Emeka Madubuike - Member
- 4 Ms. Tinuade Awe - Member
- 5 Mr. Uche Ike - Member** (Until 19 September 2022)

The Company Secretary acted as a Secretary to the Committee.

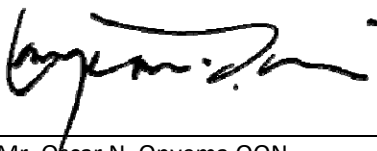

Statement of Directors' Responsibilities in Relation to the Consolidated and separate Financial Statements for the year ended 31 December 2022

The directors accept responsibility for the preparation of the consolidated and separate financial statements that give a true and fair view in accordance with International Financial Reporting Standards (IFRS standard) IFRS Standards as issued by the International Accounting Standards Board (IFRS Standards) and in the manner required by the Companies and Allied Matters Act, (CAMA) 2020 and the Financial Reporting Council of Nigeria Act, 2011.

The directors further accept responsibility for maintaining adequate accounting records as required by the Companies and Allied Matters Act, (CAMA)2020 and for such internal control as the directors determine is necessary to enable the preparation of financial statements that are free from material misstatement whether due to fraud or error.

The directors have made assessment of the Group and the Company's ability to continue as a going concern and have no reason to believe that the Group and the Company will not remain a going concern in the year ahead.

SIGNED ON BEHALF OF THE BOARD OF DIRECTORS BY:

Mr. Oscar N. Onyema OON
Chairman
FRC/2013/IODN/00000001802
23 March 2023

Mr. Haruna Jalo-Waziri
Managing Director/CEO
FRC/2017/IODN/00000017488
23 March 2023

Statement of Corporate Responsibility for the consolidated and separate Financial Statements for the Year Ended 31 December 2022

Further to the provisions of section 405 of the Companies and Allied Matters Act (CAMA), 2020, we, the Managing Director/CEO and Chief Financial Officer, hereby certify the financial statements of the Central Securities Clearing System Plc for the year ended 31 December 2022 as follows:

- a) That we have reviewed the audited consolidated and separate financial statements of the Company for the year ended 31 December 2022
- b) That the audited consolidated and separate financial statements do not contain any untrue statement of material fact or omit to state a material fact which would make the statements misleading, in the light of the circumstances under which such statement was made.
- c) That the audited consolidated and separate financial statements and all other financial information included in the statements fairly present, in all material respects, the financial condition and results of operation of the Company as of and for, the year ended 31 December 2022
- d) That we are responsible for establishing and maintaining internal controls and have designed such internal controls to ensure that material information relating to the Company and its subsidiary is made known to the officer by the management of the companies, during the period ended 31 December 2022
- e) That there were no significant changes in internal controls or in other factors that could significantly affect internal controls subsequent to the date of our evaluation, including any corrective action with regard to significant deficiencies and material weaknesses.
- g) That we have disclosed the following information to the Company's Auditors and Audit Committee:
 - (h) there are no significant deficiencies in the design or operation of internal controls which could adversely affect the Company's ability to record, process, summarise and report financial data, and have identified for the Company's auditors any material weaknesses in internal controls, and
 - (ii) there is no fraud that involves management or other employees who have a significant role in the Company's internal control.

INDEPENDENT AUDITOR'S REPORT

To the Shareholders of Central Securities Clearing System PLC

Report on the Audit of the Consolidated and Separate Financial Statements

Opinion

We have audited the consolidated and separate financial statements of Central Securities Clearing System PLC ("the Company") and its subsidiary (together, "the group"), which comprise:

- the consolidated and separate statements of financial position as at 31 December 2022;
- the consolidated and separate statements of profit or loss and other comprehensive income;
- the consolidated and separate statements of changes in equity;
- the consolidated and separate statements of cash flows for the year then ended; and
- the notes, comprising significant accounting policies and other explanatory information.

In our opinion, the accompanying consolidated and separate financial statements give a true and fair view of the consolidated and separate financial position of the Company and its subsidiary as at 31 December 2022, and of its consolidated and separate financial performance and its consolidated and separate cash flows for the year then ended in accordance with IFRS Standards as issued by the International Accounting Standards Board (IFRS Standards) and in the manner required by the Companies and Allied Matters Act (CAMA), 2020 and the Financial Reporting Council of Nigeria Act, 2011.

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the consolidated and separate Financial Statements* section of our report. We are independent of the Group and Company in accordance with International Ethics Standards Board for Accountants International Code of Ethics for Professional Accountants (including International Independence Standards) (IESBA Code) together with the ethical requirements that are relevant to our audit of the consolidated and separate financial statements in Nigeria and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated and separate financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined that there are no key audit matters to communicate in our report.

Other Information Other than the Financial Statements and Audit Report thereon

The Directors are responsible for the other information. The other information comprises the Corporate information, Directors' report, Statement of Directors' responsibilities and Other National Disclosures which we obtained to the date of this auditor's report, but does not include the consolidated and separate financial statements and our auditor's report thereon.

Other information also include the Corporate Governance Report, Strategy Report, Governance Structure, Enterprise Risk Management Report, Corporate Social Responsibility Report, Chairman's Statement, CEO's Letter to Shareholder Notice of the Annual General Meeting, Board Evaluation Report, together the "outstanding reports", which are expected to be made available to us after that date.

Our opinion on the consolidated and separate financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated and separate financial statements, our responsibility is to read the other information and in doing so, consider whether the other information is materially inconsistent with the consolidated and separate financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed on the other information that we have obtained prior to the date of the auditor's report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

When we review the outstanding reports, if we conclude that there is a material misstatement therein, we are required to communicate the matter to the those charged with governance.

Responsibilities of the Directors for the Consolidated and Separate Financial Statements

The Directors are responsible for the preparation of consolidated and separate financial statements that give a true and fair view in accordance with IFRS Standards and in the manner required by the Companies and Allied Matters Act (CAMA), 2020 and the Financial Reporting Council of Nigeria Act, and for such internal control as the directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated and separate financial statements, the directors are responsible for assessing the Group and Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group and Company or to cease operations, or have no realistic alternative but to do so.

Auditor's Responsibilities for the Audit of the Consolidated and Separate Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated and separate financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated and separate financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group and Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group and Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group and Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated and separate financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group and Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated and separate financial statements, including the disclosures, and whether the consolidated and separate financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with Audit Committee regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide Audit Committee with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with Audit Committee, we determine those matters that were of most significance in the audit of the consolidated and separate financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

Compliance with the requirements of Schedule 5 of the Companies and Allied Matters Act (CAMA), 2020.

- i. We have obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit.
- ii. In our opinion, proper books of account have been kept by the Company, so far as appears from our examination of those books.
- iii. The Company's statement of financial position and statement of profit or loss and other comprehensive income are in agreement with the books of account.

The accompanying notes form an integral part of these consolidated and separate financial statements.

Notes to the Consolidated and Separate financial statements

For the year ended 31 December 2022

1 Reporting Entity

Central Securities Clearing System Plc (CSCS) operates a computerized depository, clearing, settlement and delivery system for transactions in shares listed on the Nigerian Exchange Limited or any other authorized organized Securities Trading Platform. CSCS facilitates the delivery (transfer of shares from seller to buyer) and settlement (payment for bought shares) of securities transacted on the floors of Nigerian Exchange Limited, NASD OTC Exchange or any other authorized/organized Securities Trading Platform. CSCS was licensed by the Securities and Exchange Commission as an agent for Central Depository, Clearing and Settlement of transactions in the capital market. CSCS keeps and maintains an electronic book-entry record of all securities to facilitate the safekeeping and easy transfer of securities between parties during a trade.

The Company also provides other business support services, such as LIEN Services, legal entity identifier issuance, document management and collateral management, to businesses. The Company is domiciled in Nigeria with its registered office at Nigerian Exchange Group Building, 2/4, Customs Street, Marina Lagos.

The consolidated and separate financial statements as at and for the year ended 31 December 2022 comprise the Company and its subsidiary (together referred to as the "Group") and the Group's interest in an equity accounted investee.

2 Basis of preparation

The financial statements have been prepared in accordance with IFRS Standards.

(a) Statement of compliance

These consolidated and separate financial statements have been prepared in accordance with IFRS Standards and in the manner required by the Companies and Allied Matters Act (CAMA), 2020 and the Financial Reporting Council of Nigeria Act, 2011. The financial statements were authorised for issue by the Company's Board of Directors on 23 March 2023. Details of the accounting policies consistently applied by the Company for all years presented in the financial statements are included in Note 3.

(b) Functional and presentation currency

The consolidated and separate financial statements are presented in Nigerian Naira, which is the functional currency of the Group and Company. Except as indicated, financial information presented in Naira has been rounded to the nearest thousand.

(c) Use of estimates and judgements

The preparation of the consolidated and separate financial statements in conformity with IFRS Standards requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the year in which the estimate is revised and in any future years affected.

Information about significant areas of estimation uncertainty and critical judgements in applying accounting policies that have the most significant effect on the amounts recognised in the financial statements are described in Note 5.

(d) Basis of measurement

These consolidated and separate financial statements have been prepared on a historical cost basis except for the following material items in the statement of financial position:

- Debt and equity securities measured at FVOCI
- Defined benefit liability. This has been measured as the present value of the defined benefit obligation,

3 Changes to the Group and Company's accounting policies

New standards, interpretations and amendments adopted by the Group

A number of new standards and amendments to standards are effective for annual periods beginning on 1 January 2022 but did not have any material impact on the Group. They are:

- Property, Plant and Equipment – Proceeds before Intended Use (Amendments to IAS 16)
- Onerous Contracts – Cost of Fulfilling a Contract (Amendments to IAS 37)
- Annual Improvement to IFRS Standards 2018 – 2020 (Amendments to IFRS 1)
- Reference to the Conceptual Framework (Amendments to IFRS 3)

Notes to the Consolidated and Separate financial statements

For the year ended 31 December 2022

4 Significant accounting policies

The accounting policies set out below have been applied consistently to all financial years presented in these consolidated and separate financial statements.

(a) Basis of consolidation

(i) Business Combination

The Group accounts for business combinations using the acquisition method when the acquired set of activities and assets meets the definition of a business and control is transferred to the Group. In determining whether a particular set of activities and assets is a business, the Group assesses whether the set of assets and activities acquired includes, at a minimum, an input and substantive process and whether the acquired asset has the ability to produce output. The consideration transferred in the acquisition is generally measured at fair value, as are the identifiable net assets acquired. The Group has an option to apply the "concentration test" that permits a simplified assessment of whether an acquired set of activities is not a business. The optional concentration test is met if substantially all of the fair value of the gross assets acquired is concentrated in a single identifiable asset or a group of similar identifiable assets.

Any goodwill that arises is tested annually for impairment. Any gain on a bargain purchase is recognised in profit or loss immediately. Transaction costs are expensed as incurred, except if related to the issue of debt or equity securities.

The consideration transferred does not include amounts related to the settlement of pre-existing relationships. Such amounts are generally recognised in profit or loss.

Any contingent consideration is measured at fair value at the date of acquisition. If an obligation to pay contingent consideration that meets the definition of a financial instrument is classified as equity, then it is not remeasured and settlement is accounted for within equity. Otherwise, other contingent consideration is remeasured at fair value at each reporting date and subsequent changes in the fair value of the contingent consideration are recognised in profit or loss.

Investments in subsidiary are measured at cost less impairment in the Company financial statements.

(ii) Subsidiaries

Subsidiaries are entities controlled by the Group. The Group controls an entity if it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. The consolidated and separate financial statements incorporate the assets, liabilities and performance results of Insurance Repository Nigeria Limited. The financial statements of the subsidiary are included in the consolidated financial statements from the date that control commences until the date that control ceases. Investment in subsidiary is measured at cost in the separate financial statement.

(iii) Loss of control

When the Group loses control over a subsidiary, the Group derecognizes the assets and liabilities of the subsidiary, any non-controlling interests and the other components of equity related to the subsidiary. Any interest retained in the former subsidiary is measured at fair value when control is lost.

(iv) Transactions eliminated on consolidation

Intra-group balances and transactions, and any unrealized income and expenses arising from intra-group transactions, are eliminated in preparing the consolidated and separate financial statements. Unrealized gains arising from transactions with equity-accounted investees are eliminated against the investment to the extent of the Group's interest in the investee. Unrealized losses are eliminated in the same way as unrealized gains, but only to the extent that there is no evidence of impairment.

(v) Non-controlling interests

Non-controlling interests are measured at their proportionate share of the acquiree's identifiable net assets at the acquisition date. Changes in the Group's interests in subsidiary that do not result in a loss of control are accounted for as equity transactions.

(vi) Interest in equity-accounted investee

The Group's interest in equity-accounted investees represents its interest in associates. Associates are those entities in which the Group and Company have significant influence, but not control, over the financial and reporting policies.

Interest in equity accounted investees are accounted for using the equity method. They are initially recognised at cost, which include transaction costs. Subsequent to initial recognition, the consolidated financial statements include the Group's share of the profit or loss and OCI of equity-accounted investee, until the date on which the significant influence ceases. The Company invested in NG Clearing Limited. NG Clearing Limited is an associate company in which the Company has 24.7% ownership interest (2021: 24.7%). It is principally established to operate clearing house(s) for the clearance and settlement of transactions in financial securities and derivatives contracts. The Company was incorporated in the year 2016 and has commenced operations.

Investment in subsidiaries and equity-accounted investees are measured at cost less impairment in the separate financial statements.

(b) Foreign currency transactions

Transactions in foreign currencies are translated into the functional currency of the Group at the exchange rates at the dates of the transactions. Foreign currency differences are generally recognised in profit or loss. However, foreign currency differences arising from the translation of the investments measured at FVTOCI are recognised in other comprehensive income (except on impairment, in which case foreign currency differences that have been recognised in other comprehensive income are reclassified to profit or loss). Monetary assets and liabilities denominated in foreign currencies are translated into the functional currency using the exchange rate at the reporting date. Non-monetary assets and liabilities that are measured at fair value in a foreign currency are translated using the exchange rate at the date when fair value was measured. Non-monetary assets and liabilities measured in terms of historical cost in a foreign currency are translated using the exchange rate at the date of the transaction.

Notes to the Consolidated and Separate financial statements

For the year ended 31 December 2022

(c) Revenue

Revenue from rendering of services

Revenue is recognised when a customer obtains control of the goods or services. Determining the timing of the transfer of control – at a point in time or over time – requires judgement.

Revenue is earned from depository fee, eligibility fee, transaction fee and participation fees.

- Depository fees represent the annual fees charged to companies quoted on the Nigerian Exchange Limited at a rate based on market capitalisation.
- Eligibility Fees represents annual fees charged to stock broking firms for trading. This fees makes the stockbroking firms eligible to trade.
- Settlement banks participation fee represents annual fees charged to banks through which the value of the trades on the Nigerian Exchange Limited trading floor settles to all related parties.
- Legal entity identifier represents annual fee charged to all market participants on an annual basis for a unique identification number to enable them trade internationally and attract foreign investors confidence.
- The Group and Company provides lien services to lenders who have granted credit facilities to borrowers secured with securities deposited with the Company. Collateral Management fees and other incidental fees are charged and recognised in the statement of profit or loss once the lien service passed the five stages of revenue recognition in accordance with IFRS 15.
- Special account fee represents annual fee charged to individuals, families, corporate and stockbroking firms who desire to have their shares secured in a special account for proper monitoring.
- Website subscription fee represents annual fee charged annually to individual, family, corporate and stockbroking firms to enable them view their transactions online.
- Data centre subscription is earned from electronic document management services rendered to different levels of customers on contract basis. This income is recognised either according to percentage-of-completion or the terms and conditions of the contract letter for the period of the contract.

Revenue earned is recognized over the duration of the particular service or revenue is overtime as services are rendered. Any upfront fees or payment for services that are rendered over a period are treated as contract liability in line with IFRS 15 and recognized over the required period. These are presented as unearned income.

The following revenue are recognised at a point in time:

- Transaction fees are based on values of shares traded on the Nigerian Exchange Limited or any other authorized / organized Securities Trading Platform charged on the investors at a percentage of sales.
- Listing fee is a one-off charges on new issuance of equity and bond by the issuers. This is a percentage of the number of shares multiplied by the market price.
- Nominal fees is charged to issuers or investors for block divestment and shares detachment at an arms length transaction.
- X-alert fee is charged to investors per transaction alerting them on transactions on their shares.
- DMO services fees are monthly charges to DMO on services rendered. For example: creation of ISIN codes, OTC transaction fees, etc

Revenue	
At a point in time	Overtime
Transaction fees	Depository fee
Listing fees	Eligibility fees
Nominal fees	Settlement bank participation fees
X-alert fee	Legal Entity identifier
DMO Services	Collateral management
	Special account fee
	Website subscription fee

The Group and the Company apply practical expedient in considering income from contracts by not disclosing performance obligations that have duration of one year or less.

Contract Liability

IFRS 15 *Revenue from Contracts with Customers* establishes the principles that an entity applies when reporting information about the nature, amount, timing and uncertainty of revenue and cash flows from a contract with a customer.

Contract liability is recognised when a payment for customer is due (or already received, whichever is earlier) before a related performance obligation is satisfied.

Contract liability include payment received for collateral management services rendered as well as collateral management, Website Subscription, and sales and business development fees which are yet to be earned as at the year end 31 December 2022.

(d) Share Capital

Incremental costs attributable to the issue of ordinary shares are recognised as a deduction from equity. Income tax relating to transaction costs of an equity transaction are accounted for in accordance with IAS 12.

Notes to the Consolidated and Separate financial statements

For the year ended 31 December 2022

4 Significant accounting policies- Continued

(e) Dividends distribution

Dividend distributions to the Group and Company's shareholders are recognised in the Group's consolidated and separate financial statements in the year in which the dividend is declared and approved by the Group and Company's shareholders. Dividend paid is recognised gross of withholding tax (WHT) with the corresponding WHT remitted to the tax authorities.

(f) Earnings per share

The Group and Company presents basic and diluted earnings per share (EPS) for its ordinary shares. Basic EPS is calculated by dividing the profit or loss to ordinary shareholders of the Group and Company by the weighted average number of ordinary shares outstanding during the year. Diluted EPS is determined by adjusting the profit or loss attributable to ordinary shareholders and the weighted average number of ordinary shares outstanding for the effects of all dilutive potential ordinary shares.

(g) Employee benefits

(i) Short term employee benefits

Short term employee benefits, such as salaries, paid absences and other benefits are accounted for on an accrual basis over the year which employees have provided services in the year. Bonuses are recognised to the extent that the Group and Company has a present obligation to its employees that can be measured reliably. All expenses related to employee benefits are recognised in the income statement as personnel expenses.

(ii) Retirement benefit costs

Defined contribution plans

A defined contribution plan is a post-employment benefit plan under which the Company pays fixed contributions into a separate entity and will have no legal or constructive obligation to pay further amounts. Obligations for contributions to defined contribution pension plans are recognised as an expense in profit or loss when they are due in respect of service rendered before the end of the reporting year. Prepaid contributions are recognised as an asset to the extent that a cash refund or reduction in future payments is available. The Company operates a funded contributory retirement benefit scheme for its employees under the provisions of the Pension Reform Act 2014 (as amended). The employer contributes 10% while the employee contributes 8% of the qualifying employee's salary.

Defined benefit plans - Long term incentive scheme

The calculation of defined benefit obligations is performed annually by an external actuary using the projected unit credit method. When the calculation results in a potential asset for the Group, the recognised asset is limited to the present value of economic benefits available in the form of any future refunds from the plan or reductions in future contributions to the plan.

Remeasurements of the net defined benefit liability, which comprise actuarial gains and losses, the return on plan assets (excluding interest) and the effect of the asset ceiling (if any, excluding interest), are recognised immediately in OCI. The Group determines the net interest expense (income) on the net defined benefit liability (asset) for the year by applying the discount rate used to measure the defined benefit obligation at the beginning of the annual year to the then-net defined benefit liability (asset), taking into account any changes in the net defined benefit liability (asset) during the year as a result of contributions and benefit payments. Net interest expense and other expenses related to defined benefit plans are recognised in profit or loss.

When the benefits of a plan are changed or when a plan is curtailed, the resulting change in benefit that relates to past service or the gain or loss on curtailment is recognized immediately in profit or loss. The Group and Company recognises gains and losses on the settlement of a defined benefit plan when the settlement occurs.

Valuation Methodology

- First, at the date of joining employment, Present value approach was used to determine the value of the expected future contributions at the proposed annual contribution rate by discounting at the assumed net of earnings discount rate over the period to retirement.
- Secondly the resulting value was adjusted for accumulation at the valuation rate of interest to the valuation date and thereafter, over the future years to retirement, from that date to give the projected lump sum.
- Finally, the projected cash sum was expressed as a proportion of the projected final total emoluments in the year of retirement to obtain the projected gross income replacement ratio.

(h) Taxation

Income tax

Income tax expense comprises current tax (company income tax, tertiary education tax, National Information Technology Development Agency levy and Nigeria Police Trust Fund levy) and deferred tax. It is recognised in profit or loss except to the extent that it relates to a business combination, or items recognised directly in equity or in other comprehensive income.

The Company had determined that interest and penalties relating to income taxes, including uncertain tax treatments, do not meet the definition of income taxes, and therefore are accounted for under IAS 37 *Provisions, Contingent Liabilities and Contingent Assets*.

Notes to the Consolidated and Separate financial statements

For the year ended 31 December 2022

4 Significant accounting policies- Continued

(a) Current tax

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year, and any adjustment to tax payable or receivable in respect of previous years.

The amount of current tax payable or receivable is the best estimate of the tax amount expected to be paid or received that reflects uncertainty related to income taxes, if any. It is measured using tax rates enacted or substantively enacted at the reporting date and is assessed as follows:

- Company income tax is computed on taxable profits
- Tertiary education tax is computed on assessable profits
- National Information Technology Development Agency levy is computed on profit before tax
- Nigeria Police Trust Fund levy is computed on net profit (i.e. profit after deducting all expenses and taxes from revenue earned by the company during the year)

Total amount of tax payable under CITA is determined based on the higher of two components namely Company Income Tax (based on taxable income (or loss) for the year); and minimum tax. Taxes based on profit for the period are treated as income tax in line with IAS 12.

(b) Deferred tax

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes.

- temporary differences on the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss;
- temporary differences related to investments in subsidiaries, associates and joint arrangements to the extent that the Company is able to control the timing of the reversal of the temporary differences and it is probable that they will not reverse in the foreseeable future; and
- taxable temporary differences arising on the initial recognition of goodwill.

Deferred tax assets are recognised for unused tax losses, unused tax credits and deductible temporary differences to the extent that it is probable that future taxable profits will be available against which they can be used. Future taxable profits are determined based on the reversal of relevant taxable temporary differences.

If the amount of taxable temporary differences is insufficient to recognise a deferred tax asset in full, then future taxable profits, adjusted for reversals of existing temporary differences, are considered, based on the business plans of the Company. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised; such reductions are reversed when the probability of future taxable profits improves.

Unrecognised deferred tax assets are reassessed at each reporting date and recognised to the extent that it has become probable that future taxable profits will be available against which they can be used.

Deferred tax is measured at the tax rates that are expected to be applied to temporary differences when they reverse, using tax rates enacted or substantively enacted at the reporting date, and reflects uncertainty related to income taxes, if any .

The measurement of deferred tax reflects the tax consequences that would follow from the manner in which the Company expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset only if certain criteria are met.

(i) Property and equipment

(i) Recognition and measurement

The cost of an item of property, plant and equipment is recognised as an asset if:

- it is probable that future economic benefits associated with the item will flow to the entity; and
- the cost of the item can be measured reliably.

Property and equipment are carried at the cost of acquisition or construction and depreciated over its estimated useful life.

The cost of acquisition comprises the acquisition price plus ancillary and subsequent acquisition costs, less any reduction received on the acquisition price. The cost of self-constructed property and equipment comprises the direct cost of materials, direct manufacturing expenses, and appropriate allocations of material and manufacturing overheads. Where an obligation exists to remove an asset or restore a site to its former condition at the end of its useful life, the present value of the related future payments is capitalized along with the cost of acquisition or construction upon completion and a corresponding liability is recognized.

Property, plant and equipment are tangible items that:

- are held for use in the production or supply of goods or services, for rental to others, or for administrative purposes; and
- are expected to be used during more than one period.

Property, plant and equipment includes bearer plants related to agricultural activity.

(ii) Subsequent expenditure

Expenses for the repair of property and equipment, such as on-going maintenance costs, are normally recognized in profit or loss. The cost of acquisition or construction is capitalized if a repair (such as a complete overhaul of technical equipment) will result in future economic benefits to the Group.

Notes to the Consolidated and Separate financial statements

For the year ended 31 December 2022

4 Significant accounting policies- Continued

(iii) Depreciation

Depreciation is recognised in profit or loss on a straight line basis over the estimated useful lives of each part of an item of property and equipment. Depreciation is charged to profit from the date the assets are available for use and significant asset components with different useful lives are accounted for and depreciated separately. Right-of-use assets are depreciated on a straight-line basis over the lease term. The following depreciation years, based on the estimated useful lives of the respective assets, are applied throughout the Group:

Computer Equipment	4 years
Furniture and Fittings	8 years
Motor vehicle	5 years
Office Equipment	5 years
Leasehold improvement	3 years
Capital work in progress	Not depreciated

Depreciation begins when an asset (tangible) is available for use and ceases at the earlier of the date that the asset is derecognised or classified as held for sale in accordance with IFRS 5- *Non Current Asset Held for Sales and Discontinued Operations*

Depreciation methods, useful lives and residual values are reviewed at each reporting date and adjusted if appropriate.

(iv) Derecognition

An item of property and equipment is derecognised on disposal or when no future economic benefits are expected from its use or disposal. The gain or loss on disposal is the difference between the proceeds and the carrying amount which is recognised as an operating income or expense respectively in profit or loss.

When assets are sold, closed down or scrapped, the difference between the net proceeds and the net carrying amount of the assets is recognized as a gain or loss in other operating income or expenses, respectively.

(v) Capital Work in progress

Construction and other capital projects that are yet to be completed at the reporting date are classified as capital work in progress and recognised in Work-in-progress account. They are transferred to relevant classes of property and equipment upon completion of the project when items are ready for use. Items classified as work in progress are not depreciated.

(j) Intangible assets

(i) Initial recognition and measurement

Intangible assets with finite useful lives that are acquired separately are carried at cost less accumulated amortisation and any accumulated impairment losses. Amortisation is recognised on a straight-line basis over their estimated useful lives. The estimated useful life and amortisation method are reviewed at the end of each reporting year, with the effect of any changes in estimate being accounted for on a prospective basis.

(ii) Subsequent Expenditure

Subsequent expenditure is capitalized only when it increases the future economic benefits embodied in the specific asset to which it relates. All other expenditure is recognised in profit or loss as incurred, on the same basis as intangible assets that are acquired separately.

(j) Intangible assets- Continued

(iii) Amortisation

Amortisation is calculated over the cost of the asset, or other amount substituted for cost, less its residual value.

Amortisation is recognised in the profit or loss on a straight-line basis over the estimated useful lives of intangible assets from the date that they are available for use, since this most closely reflects the expected pattern of consumption of the future economic benefits embodied in the asset. The estimated useful lives for the current and comparative years are as follows:

Software License	Over License term
Software under development	Not amortized

(iv) Derecognition

An intangible asset, amortization methods, useful lives and residual value are derecognised on disposal, or when no future economic benefits are expected from use or disposal. Gains or losses arising from derecognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset, are recognised in profit or loss.

(v) Software under development

Software under development represents qualifying capital expenditure on software, which is yet to be completed at the reporting date. They are transferred to intangible asset class upon completion. Items classified as software under development are not amortized but are reviewed at each reporting date and adjusted if appropriate.

Software under development is capitalised only if the expenditure can be measured reliably, the product is technically and commercially feasible, future economic benefits are probable and the Group intends to and has sufficient resources and ability to complete development and to use or sell the asset. Otherwise, it is recognised in profit or loss as incurred. Subsequent to initial recognition, software under development is measured at cost less accumulated amortisation and any accumulated impairment losses.

Notes to the Consolidated and Separate financial statements

For the year ended 31 December 2022

4 Significant accounting policies- Continued

(k) Impairment of non-financial assets

The carrying values of all non-financial assets are reviewed for impairment when there is an indication that the assets might be impaired. Impairment tests are performed not only on individual items of intangible assets, property, plant and equipment, but also at the level of cash-generating units.

A cash-generating unit is the smallest identifiable group of assets that generates cash inflows that are largely independent of the cash inflows from other assets or groups of assets.

Cash-generating units are tested if there is an indication of possible impairment. Impairment testing involves comparing the carrying amount of each cash-generating unit or item of intangible assets, property or equipment to the recoverable amount, which is the higher of its fair value less costs to sell or value in use. If the carrying amount exceeds the recoverable amount, the asset is impaired by the amount of the difference.

Impairment losses are recognised in profit or loss. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if no impairment loss had been recognized. Reversals of impairment losses are recognized in profit or loss.

For the purpose of calculating the recoverable amount, both the fair value less costs to sell and the value in use are determined from the present value of the future net cash flows. These are forecast on the basis of the Group and Company's current planning, the planning horizon normally being three to five years. Forecasting involves making assumptions, especially regarding future selling prices, sales volumes and costs. Where the recoverable amount is the fair value less costs to sell, the cash-generating unit is measured from the viewpoint of an independent market participant. Where the recoverable amount is the value in use, the cash-generating unit or individual asset is measured as currently used. In either case, net cash flows beyond the planning year are determined on the basis of long-term business expectations using individual growth rates derived from the respective market information.

(l) Leases

At inception of a contract, the Group and Company assesses whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

The Group and Company's major lease transactions are leases relating to the lease of its head office and Abuja branch.

(l) Leases- Continued

(i) The Group/Company is a lessee

The Group and Company applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Group and Company recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

Right-of-use assets

The Group and Company recognises right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the lease term.

The right-of-use assets are presented within Note 15.

Lease liabilities

The Group and Company recognises lease liabilities at the commencement date of the lease. The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, Group and Company's incremental borrowing rate. Practically, the incremental borrowing rate of the Group and Company is used as the discount rate.

The lease liability is decreased by lease payment and increased by the interest cost on the lease liability. Remeasurement is done whenever there is a change in future lease payments arising from a change in an index or rate, a change in the estimate of the amount expected to be payable under a residual value guarantee, or as appropriate, changes in the assessment of whether a purchase or extension option is reasonably certain to be exercised or a termination option is reasonably certain not to be exercised.

The Group and Company has applied judgement to determine the lease term for its lease contracts in which it is a lessee that include renewal options. The assessment of whether the Group and Company is reasonably certain to exercise such options impacts the lease term, which remarkably impacts the amount of right-of-use asset and lease liability recognised.

Notes to the Consolidated and Separate financial statements

For the year ended 31 December 2022

4 Significant accounting policies- Continued

(m) Financial Instruments

(i) The Group and Company's financial assets comprise the following:

(a) Cash and cash equivalents

Cash and cash equivalents comprise cash in hand, current balances with banks and similar institutions and highly liquid investments with maturities of three months or less when acquired. They are readily convertible into known amounts of cash and are held for cash management purposes and to meet short term obligations. Cash and cash equivalents are initially measured at fair value and subsequently measured at amortized cost.

(b) Fixed deposits

Fixed deposits, comprising principally funds held with banks and other financial institutions, are initially measured at fair value, plus direct transaction costs, and are subsequently re-measured to amortised cost using the effective interest rate method at each reporting date. Changes in carrying value are recognised in the Statement of Profit or Loss.

(c) Investment securities

Investment securities include all securities classified as fair value through other comprehensive Income, fair value through profit or loss and amortised cost. All investment securities are initially recorded at fair value and subsequently measured according to the respective classification.

(d) Trade receivables

Trade receivables comprise debtors from customers. E.g. Bond dealers, Quoted companies, Settlement Banks, etc. They are carried at original invoice amount less any impairment for doubtful receivables. Impairment allowances for doubtful receivables are made using the expected credit loss model taking into account ageing, previous experience, general economic conditions and forward looking information. Other receivables are initially measured at fair value and subsequently measured at amortized cost.

(e) Other receivables

Other receivables comprise staff debtors and other receivables. They are carried at original invoice amount less any impairment for doubtful receivables. Impairment allowances for doubtful receivables are made using the expected credit loss model taking into account ageing, previous experience, general economic conditions and forward looking information. Other receivables are initially measured at fair value and subsequently measured at amortized cost.

(ii) Recognition and initial measurement

The Group and Company initially recognizes its financial assets and liabilities on the trade date, which is the date on which it becomes a party to the contractual provisions of the instrument. A financial asset or financial liability is measured initially at fair value plus, for an item not at fair value through profit or loss, transaction costs that are directly attributable to its acquisition or issue.

Trade receivables are initially measured at fair value and subsequently measured at amortized cost.

(iii) Financial assets classification

On initial recognition, a financial asset is classified as measured at: amortised cost, fair value through other comprehensive income (FVOCI)-debt investment, FVOCI-unquoted equity investment, or fair value through profit or loss (FVTPL) - quoted equity investment. Classification and measurement for debt securities is based on the Group and Company's business model for managing the financial instruments and the contractual cash flow characteristics of the instruments.

Debt instruments are measured at amortised cost if both of the following conditions are met and the asset is not designated as FVTPL:

- (a) the asset is held within a business model that is Held-to-Collect (HTC) as described below, and
- (b) the contractual terms of the instrument give rise to cash flows that are solely payments of principal and interest on the principal amount outstanding (SPPI).

Debt instruments are measured at FVOCI if both of the following conditions are met and the asset is not designated as FVTPL:

- (a) the asset is held within a business model that is Held-to-Collect-and-Sell (HTC&S) as described below, and
- (b) the contractual terms of the instrument give rise, on specified dates, to cash flows that are SPPI.

All other debt instruments are measured at FVTPL.

Equity instruments are instruments that meet the definition of equity from the issuer's perspective; that is, instruments that do not contain a contractual obligation to pay and that evidence a residual interest in the issuer's net assets.

On initial recognition of an equity investment that is not held for trading, the Group and Company may irrevocably elect to present subsequent changes in the investment's fair value in OCI. This election will be used for certain equity investments for strategic or long term investment purposes. This election is made on an investment-by-investment basis and once made is irrevocable. For equity instruments measured at FVTPL, changes in fair value are recognized in the profit or loss. Any transaction costs incurred upon purchase of the security are added to the cost basis of the security and are not reclassified to the profit or loss on sale of the security.

Notes to the Consolidated and Separate financial statements

For the year ended 31 December 2022

4 Significant accounting policies- Continued

(m) Financial Instruments- Continued

(a) Business model assessment

The Group and Company determines the business models at the level that best reflects how portfolios of financial assets are managed to achieve the Group and Company's business objectives. Judgment is used in determining the business models, which is supported by relevant, objective evidence including:

- How the economic activities of the Group and Company's businesses generate benefits, for example through trading revenue, enhancing yields or other costs and how such economic activities are evaluated and reported to key management personnel;
- How managers of the portfolio are compensated; e.g. whether compensation is based on the fair value of assets managed or the contractual cashflows collected;
- The significant risks affecting the performance of the Group and Company's businesses, for example, market risk, credit risk, or other risks and the activities undertaken to manage those risks; and
- Historical and future expectations of sales of securities portfolios managed as part of a business model.
- Frequency, timing and volume of sales is also considered in assessing business model

The Group's business models fall into three categories, which are indicative of the key strategies used to generate returns:

- **Hold-to-Collect (HTC):** The objective of this business model is to hold securities to collect contractual principal and interest cash flows. Sales are incidental to this objective and are expected to be insignificant or infrequent.
- **Hold-to-Collect-and-Sell (HTC&S):** Both collecting contractual cash flows and sales are integral to achieving the objective of the business model.
- **Other fair value business models:** These business models are neither HTC nor HTC&S, and primarily represent business models where assets are held-for-trading or managed on a fair value basis.

(b) Assessment of whether cashflows are solely payments of principal and interest

For the purposes of this assessment, 'principal' is defined as the fair value of the financial asset on initial recognition. 'Interest' is defined as consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs (e.g. liquidity risk and administrative costs), as well as a profit margin

In assessing whether the contractual cash flows are solely payments of principal and interest, the Group and Company considers the contractual terms of the instrument. This includes assessing whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition. In making this assessment, the Group and Company considers:

- contingent events that would change the amount or timing of cash flows;
- terms that may adjust the contractual coupon rate, including variable - rate features;
- prepayment and extension features; and
- terms that limit the Group's claim to cash flows from specified assets (e.g. non -recourse features).

A prepayment feature is consistent with the solely payments of principal and interest criterion if the prepayment amount substantially represents unpaid amounts of principal and interest on the principal amount outstanding, which may include reasonable additional compensation for early termination of the contract. Additionally, for a financial asset acquired at a discount or premium to its contractual par amount, a feature that permits or requires prepayment at an amount that substantially represents the contractual par amount plus accrued (but unpaid) contractual interest (which may also include reasonable additional compensation for early termination) is treated as consistent with this criterion if the fair value of the prepayment feature is insignificant at initial recognition.

(iv) Financial assets – Subsequent measurement and gains and losses

Financial asset at amortised cost	These assets are subsequently measured at amortised cost using effective interest rate method. The amortised cost is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment are recognised in profit or loss. Any gain or loss on derecognition is recognised in profit or loss.
Debt Investment at FVOCI	These assets are subsequently measured at fair value through other comprehensive income and using effective interest rate method in recognising interest income. Changes in fair value are recognized initially in Other Comprehensive Income (OCI). When the asset is derecognized or reclassified, changes in fair value previously recognized in OCI and accumulated in equity are reclassified to profit and loss on a basis that always results in an asset measured at FVOCI having the same effect on profit and loss as if it were measured at amortized cost.
Financial assets at FVTPL	These assets are subsequently measured at fair value. Net gains and losses including any interest or dividend income, are recognized in profit or loss.
Equity investment at FVOCI	These assets are subsequently measured at fair value. Dividends are recognised as income in profit or loss unless the dividend clearly represent recovery of part of the cost of the investment. Other net gains and losses are recognised in OCI and are never reclassified to profit or loss.

Notes to the Consolidated and Separate financial statements

For the year ended 31 December 2022

4 Significant accounting policies- Continued

(m) Financial Instruments- Continued

(v) Financial liabilities – Classification, subsequent measurement and gains and losses

Financial liabilities are classified as measured at amortised cost or FVTPL. A financial liability is classified as FVTPL if it is classified as held-for-trading, it is a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognised in profit or loss. Other financial liabilities are subsequently measured at amortized cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognised in profit or loss. Any gain or loss on derecognition is also recognised in profit or loss.

(vi) Derecognition

Financial assets

The Group and Company derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Group and Company neither transfers nor retains substantially all of the risks and rewards of ownership and it does not retain control of the financial asset.

The Group and Company enters into transactions whereby it transfers assets recognised in its statement of financial position, but retains either all or substantially all of the risks and rewards of the transferred assets. In these cases, the transferred assets are not derecognised.

Financial liabilities

The Group and Company derecognises a financial liability when its contractual obligations are discharged or cancelled, or expire. The Group and Company also derecognises a financial liability when its terms are modified and the cash flows of the modified liability are substantially different, in which case a new financial liability based on the modified terms is recognised at fair value. On derecognition of a financial liability, the difference between the carrying amount extinguished and the consideration paid (including any non-cash assets transferred or liabilities assumed) is recognised in profit or loss.

(vii) Offsetting

Financial assets and financial liabilities are offset and the net amount presented in the statement of financial position when, and only when, the Group and Company currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realise the asset and settle the liability simultaneously.

(viii) Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date in the principal or, in its absence, the most advantageous market to which the Group and Company has access at the date. The fair value of a liability reflects its non-performance risk.

When available, the Group and Company measure the fair value of an instrument using the quoted price in an active market for that instrument. A market is regarded as active if transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis.

If there is no quoted price in an active market, then the Group and Company uses valuation technique that maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The chosen valuation technique incorporates all the factors that market participants would take into account in pricing a transaction.

(ix) Amortised cost

The amortized cost of a financial asset or liability is the amount at which the financial asset or liability is measured at initial recognition, minus principal repayments, plus or minus the cumulative amortization using the effective interest method of any difference between the initial amount recognized and the maturity amount, minus any reduction for impairment.

(n) Impairment

Non-derivative financial assets

The Group and Company recognises loss allowances for ECLs on:

- financial assets measured at amortised cost and
- debt investments measured at FVOCI;

The Group and Company measures loss allowances at an amount equal to lifetime ECLs, except for the following, which are measured at 12-month ECLs:

- debt securities that are determined to have low credit risk at the reporting date; and
- other debt securities and bank balances for which credit risk (i.e. the risk of default occurring over the expected life of the financial instrument) has not increased significantly since initial recognition.

Loss allowances for trade receivables are always measured at an amount equal to lifetime ECLs

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECLs, the Group and Company considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Group and Company's historical experience and informed credit assessment and including forward-looking information.

Notes to the Consolidated and Separate financial statements

For the year ended 31 December 2022

4 Significant accounting policies- Continued

The Group and Company assumes that the credit risk on a financial asset has increased significantly if it is more than 30 days past due.

The Group and Company considers a financial asset to be in default when:

- the borrower is unlikely to pay its credit obligations to the Group in full, without recourse by the Group and Company to actions such as realising security (if any is held); or
- the financial asset is more than 90 days past due.

The Group and Company considers a debt security to have low credit risk when its credit risk rating is equivalent to the globally understood definition of 'investment grade'. The Group and Company considers this to be B or BBB- or higher per Agusto & Co., Standard & Poor's, and Global Credit Rating.

Lifetime ECLs are the ECLs that result from all possible default events over the expected life of a financial instrument.

12-month ECLs are the portion of ECLs that result from default events that are possible within the 12 months after the reporting date (or a shorter period if the expected life of the instrument is less than 12 months).

The maximum period considered when estimating ECLs is the maximum contractual period over which the Group and Company is exposed to credit risk.

Measurement of ECLs

The Group and Company recognizes loss allowances for Expected Credit Losses (ECL) on the following financial instruments that are not measured at FVTPL. The Entity measures expected credit losses and recognizes interest income on risk assets based on the following stages:

Stage 1: Assets that are performing. If credit risk is low as of the reporting date or the credit risk has not increased significantly since initial recognition, The Group and Company recognize a loss allowance at an amount equal to 12-month expected credit losses. This amount of credit losses is intended to represent lifetime expected credit losses that will result if a default occurs in the 12 months after the reporting date, weighted by the probability of that default occurring.

Stage 2: Assets that have significant increases in credit risk. In instances where credit risk has increased significantly since initial recognition, The Entity measures a loss allowance at an amount equal to full lifetime expected credit losses. That is, the expected credit losses that result from all possible default events over the life of the financial instrument. For these debt instruments, interest income recognition will be based on the Effective Interest Rate(EIR) multiplied by the gross carrying amount.

Stage 3: Credit impaired. For debt instruments that have both a significant increase in credit risk plus observable evidence of impairment.

ECLs are a probability-weighted estimate of credit losses. Credit losses are measured as the present value of all cash shortfalls (i.e. the difference between the cash flows due to the entity in accordance with the contract and the cash flows that the Group and Company expects to receive).

ECLs are discounted at the effective interest rate of the financial asset.

Impairment methodology

The calculation of ECL incorporates forward-looking information in all the ECL components. This forward-looking information will impact the various ECL components as follows:

- Probability of default – The PDs will vary during various stages of an economic cycle. It is based on the likelihood that a borrower will default within one year (PD), assessment of the creditworthiness of the counterparty and transformation of 1 Year horizon into lifetime of the asset.
- Loss Given Default – Collateral values will vary based on the stage of an economic cycle.
- Exposure at default – Change in interest rates may affect the EAD e.g. higher interest rates may result in longer terms for loans causing a change in the EAD.

Loss Given Default

The Group applies historical experience to determine the expected loss given default ratios for each class of financial instruments. Where internal historical experience is not available, other sources, e.g. data available from rating companies as well as professional judgments are used to determine the LGD ratios that will apply. Collateral that is held against the financial assets is also considered in determining the LGD.

The Group management has resolved to use the recovery rates as published by Moodys credit analytics for all credit exposures to sovereign denominated in foreign currencies and all corporate exposures.

For sovereign exposures denominated in Naira which are assessed as low credit risk exposures, we have resolved to use LGDs within the range of 5-10% based on the Central banks of Nigeria's Revised Guidance Notes on Credit risk. Section 3.1 of the document addresses exposure to sovereigns and Central banks and states that financial institutions should assign a risk weight of 0% to the following:

- Exposures to Federal Government of Nigeria (FGN) and Central Bank of Nigeria (CBN);
- Instruments issued by other entities backed by express guarantee of the FGN;
- Inter-bank transactions guaranteed by the FGN or CBN; and
- Inter-bank transactions among supervised institutions collateralized by FGN Bonds, Treasury Bills or other similar sovereign bill

Credit-impaired financial assets

At each reporting date, the Group and Company assesses whether financial assets carried at amortised cost and debt securities at FVOCI are credit-impaired. A financial asset is 'credit-impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

Evidence that a financial asset is credit-impaired includes the following observable data:

- significant financial difficulty of the borrower or issuer
- a breach of contract such as a default or being more than 90 days past due;
- the restructuring of a loan or advance by the Group and Company on terms that it would not consider otherwise;
- it is probable that the borrower will enter bankruptcy or other financial reorganisation; or
- the disappearance of an active market for a security because of financial difficulties.

Notes to the Consolidated and Separate financial statements

For the year ended 31 December 2022

4 Significant accounting policies- Continued

Presentation of allowance for ECL in the statement of financial position

Loss allowances for financial assets measured at amortised cost are deducted from the gross carrying amount of the assets.

For debt securities at FVOCI, the loss allowance is charged to profit or loss and is recognised in OCI

Write-off

The gross carrying amount of a financial asset is written off when the Group and Company has no reasonable expectations of recovering a financial asset in its entirety or a portion thereof. For individual customers, the Group and Company has a policy of writing off the gross carrying amount when the financial asset is 180 days past due based on historical experience of recoveries of similar assets.

For corporate customers, the Group and Company individually makes an assessment with respect to the timing and amount of write-off based on whether there is a reasonable expectation of recovery. The Group and Company expects no significant recovery from the amount written off. However, financial assets that are written off could still be subject to enforcement activities in order to comply with the Group and Company's procedures for recovery of amounts due.

(o) Provisions

Provisions are measured in accordance with IAS 37 (*Provisions, Contingent Liabilities and Contingent Assets*). Where the cash outflow to settle an obligation is expected to occur after one year, the provision is recognized at the present value of the expected cash outflow. Claims for reimbursements from third parties are capitalized separately if their realization is virtually certain.

If the projected obligation declines as a result of a change in the estimate, the provision is reversed by the corresponding amount and the resulting income recognized in the operating expense item(s) in which the original charge was recognized.

Trade-related provisions are recorded mainly for the obligations in respect of services already received but not yet invoiced.

Provisions for litigation are recorded in the statement of financial position in respect of pending or future litigations, subject to a case-by-case examination. Such legal proceedings are evaluated on the basis of the available information, including that from legal counsel acting for the Group, to assess potential outcomes. Where it is more likely than not that a present obligation arising out of legal proceedings will result in an outflow of resources, a provision is recorded in the amount of the present value of the expected cash outflows if these are considered to be reliably measurable. These provisions cover the estimated payments to plaintiffs, court fees, attorney costs and the cost of potential settlements. The evaluation is based on the current status of the litigations as of each closing date and includes an assessment of whether the criteria for recording a provision are met and, if so, the amount of the provision to be recorded.

Litigation and other judicial proceedings generally raise complex issues and are subject to many uncertainties and complexities including, but not limited to, the facts and circumstances of each particular case, the jurisdiction in which each suit is brought and differences in applicable law. The outcome of currently pending and future proceedings therefore cannot be predicted. As a result of a judgment in court proceedings or the conclusion of a settlement, the Group may incur charges in excess of presently established provisions and related insurance coverage.

Where the time effect of money is material, balances are discounted to current values using appropriate rates of interest. The unwinding of the discount is recognized as finance cost.

(p) Interest income

Interest income is recognised using the effective interest method. The 'effective interest rate' is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial instrument to:

- the gross carrying amount of the financial asset; or
- the amortised cost of the financial liability.

In calculating interest income, the effective interest rate is applied to the gross carrying amount of the asset (when the asset is not credit-impaired). However, for financial assets that have become credit-impaired subsequent to initial recognition, interest income is calculated by applying the credit-adjusted effective interest rate to the amortised cost of the financial asset.

If the asset is no longer credit-impaired, then the calculation of interest income reverts to the gross basis.

(q) Contingent assets and liabilities

A contingent asset is a possible asset that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Group. Contingent assets are disclosed in the financial statements when they arise.

A contingent liability is a probable obligation that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Group. However, they are recognised, if it is probable that an outflow of economic resources will be required to settle the obligation and the amount can be reliably estimated. Contingent liabilities are disclosed in the financial statements when they arise.

(r) Other operating expenses

All other operating expenses are accounted for on accrual basis

(s) Other income

Other income are recognised when the goods or services are transferred to the customer, at the transaction price. They comprise of fees on services to the custodian, gain on foreign exchange, profit of asset disposal, etc

(t) Finance Cost

Finance costs are accounted for on accrual basis. This comprises of the Lease interest.

Notes to the Consolidated and Separate financial statements

For the year ended 31 December 2022

(u) Standards issued but not yet effective

The standards and Interpretations that are issued, but not yet effective, up to the date of issuance of the Consolidated and separate financial statements are disclosed below. The Group and Company intends to adopt these standards, if applicable, when they become effective.

Standard	Date issued by IASB	Effective date periods beginning or after	Summary of the requirements and impact assessment
Amendments to IAS 8-Definition of Accounting Estimates	Feb-21	1-Jan-23	<p>This amendment provides clarifications to companies on how to distinguish changes in accounting policies from changes in accounting estimates, with a primary focus on the definition of and clarifications on accounting estimates.</p> <p>The amendment introduces a new definition for accounting estimates: clarifying that they are monetary amounts in the financial statements that are subject to measurement uncertainty.</p> <p>The amendments also clarifies the following:</p> <ul style="list-style-type: none"> •an entity develops an accounting estimate to achieve the objective set out by an accounting policy. •developing an accounting estimate includes both selecting a measurement technique (estimation or valuation technique) and choosing the inputs to be used when applying the chosen measurement technique. •a change in accounting estimate that results from new information or new developments is not the correction of an error. In addition, the effects of a change in an input or a measurement technique used to develop an accounting estimate are changes in accounting estimates if they do not result from the correction of prior period errors. •a change in an accounting estimate may affect only the current period's profit or loss, or the profit or loss of both the current period and future periods. <p>The effect of the change relating to the current period is recognised as income or expense in the current period. The effect, if any, on future periods is recognised as income or expense in those future periods.</p> <p>The definition of accounting policies remains unchanged.</p> <p>The amendments are effective for periods beginning on or after 1 January 2023, and will apply prospectively to changes in accounting estimates and changes in accounting policies occurring on or after the beginning of the first annual reporting period in which the company applies the amendments.</p>
Amendments to IAS 1 and IFRS Practice Statement 2: Disclosure Initiative: Accounting Policies	Feb-21	1-Jan-23	<p>The amendments were issued to assist companies provide useful accounting policy disclosures. The key amendments to IAS 1 include:</p> <ul style="list-style-type: none"> •requiring companies to disclose their material accounting policies rather than their significant accounting policies; •clarifying that accounting policies related to immaterial transactions, other events or conditions are themselves immaterial and as such need not be disclosed; and •clarifying that not all accounting policies that relate to material transactions, other events or conditions are themselves material to a company's financial statements; <p>The amendments are consistent with the refined definition of material:</p> <p>"Accounting policy information is material if, when considered together with other information included in an entity's financial statements, it can reasonably be expected to influence decisions that the primary users of general purpose financial statements make on the basis of those financial statements".</p> <p>The amendments are effective from 1 January 2023</p>

Notes to the Consolidated and Separate financial statements

For the year ended 31 December 2022

4 Significant accounting policies- Continued

Amendments to IFRS 10 and IAS 28: Sale or Contribution of Assets between an Investor and its Associate or Joint Venture	Sep-14	The effective date of this amendment has been deferred indefinitely by the IASB.	The amendments require the full gain to be recognised when assets transferred between an investor and its associate or joint venture meet the definition of a 'business' under IFRS 3 Business Combinations. Where the assets transferred do not meet the definition of a business, a partial gain to the extent of unrelated investors' interests in the associate or joint venture is recognised. The definition of a business is key to determining the extent of the gain to be recognised. When a parent loses control of a subsidiary in a transaction with an associate or joint venture (JV), there is a conflict between the existing guidance on consolidation and equity accounting. Under the consolidation standard, the parent recognises the full gain on the loss of control. But under the standard on associates and JVs, the parent recognises the gain only to the extent of unrelated investors' interests in the associate or JV. In either case, the loss is recognised in full if the underlying assets are impaired. The IASB has decided to defer the effective date for these amendments indefinitely.
Amendment to IAS 12: Deferred Tax Related to Assets and Liabilities Arising from a Single Transaction	May-21	1-Jan-23	The amendment clarifies that the initial recognition exemption does not apply to transactions that give rise to equal and offsetting temporary differences such as leases and decommissioning obligations. As a result, companies will need to recognise a deferred tax asset and a deferred tax liability for temporary differences arising on initial recognition arising from these transactions. For leases and decommissioning liabilities, the associated deferred tax asset and liabilities will need to be recognised from the beginning of the earliest comparative period presented, with any cumulative effect recognised as an adjustment to retained earnings or other components of equity at that date. If an entity previously accounted for deferred tax on these transactions using the net approach, then the impact on transition is likely to be limited to the separate presentation of the deferred tax asset and the deferred tax liability. The standard is effective for annual periods beginning on or after 1 January 2023.

The Group have not early adopted these and are currently assessing the impact on the Group's financial statements. The Group does not anticipate that the application of the amendments in the future will have a material impact on the financial statements.

5 Use of judgements and estimates

In preparing these consolidated and separate financial statements, the Directors have made judgement, estimates and assumptions that affect the application of the Group and Company's accounting policies and the reported amounts of assets, liabilities and expenses. Actual reports may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the year in which the estimate is revised, if the revision affects only that year, or in the year of the revision and future years, if the revision affects both current and future years.

Judgements

Management has exercised judgment in determining the lease term of lease contracts during the year. Judgment has been applied to determine whether the Group is reasonably certain to exercise extension options.

Assumptions and estimation uncertainties

Information about assumptions and estimation uncertainties as at 31 December 2022 that have a significant risk of resulting in a material adjustment to the carrying amounts of assets and liabilities in the next financial year are discussed below;

Impairment losses of financial assets

- (i) In the application of the Group and Company's accounting policies, the Directors are required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. In assessing the impairment, the Group and Company use historical information on the timing of the recoveries and the amount of loss incurred, and makes an adjustment if current economic and credit conditions are such that the actual losses are likely to be greater or lesser than suggested by historical trends. Actual results may differ from these estimates.

Financial assets accounted for at amortised cost and at fair value through other comprehensive income are evaluated for impairment on a basis described in the accounting policies.

Notes to the Consolidated and Separate financial statements
For the year ended 31 December 2022

5 Use of judgements and estimates-Continued

(ii) Key actuarial assumptions

Measurement of defined benefit obligations: key actuarial assumptions:

- Defined benefit obligation

The Group and Company sponsored a defined benefit plan for the Managing Director. The Group and Company estimated its obligation to its Managing Director in the current year in return for service using the projected unit credit method. Also, the funding requirements were based on actuarial measurement which sets discount rates with reference to the expected long term rates of return on plan assets. Amounts contributed in each year into the plan were expensed in the year in which they were due. Note 29.1

(iii) Measurement of fair values

A number of the Group and Company's accounting policies and disclosures require the measurement of fair values.

The Group and Company has an established control framework with respect to the measurement of fair values. This includes a team that has overall responsibility for overseeing all significant fair value measurements, including Level 3 fair values, and report directly to the Chief Financial Officer.

The team regularly reviews significant unobservable inputs and valuation adjustments. If third party information, such as broker quotes or pricing services, is used to measure fair values, then the valuation team assesses the evidence obtained from the third parties to support the conclusion that such valuations meet the requirements of IFRS Standards, including the level in the fair value hierarchy in which such valuations should be classified.

Significant valuation issues are reported to the Board Audit Committee.

When measuring the fair value of an asset or a liability, the Group and Company uses observable market data as far as possible. Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows.

- (i) Level 1 : Quoted market price (unadjusted) in an active market for an identical instrument.
- (ii) Level 2 : Valuation techniques based on observable inputs, either directly- i.e. as prices or indirectly - i.e. derived from prices. This category includes instruments valued using; quoted market prices in active markets for similar instruments; quoted prices for identical or similar instruments in markets that are considered less than active; or other valuation techniques where all significant inputs are directly or indirectly observable from market data.
- (iii) Level 3 : Valuation techniques using significant unobservable inputs. This category includes all instruments for which the valuation technique includes inputs not based on observable data and the unobservable inputs have a significant effect on the instrument's valuation. This category includes instruments that are valued based on quoted prices for similar instruments where significant unobservable adjustments or assumptions are required to reflect differences between the instruments.

If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement

Fair values of financial assets and financial liabilities that are traded in active markets are based on quoted prices or dealer price quotations. For all other financial instruments, the Group and Company determines fair values using valuation techniques. Valuation techniques include net present value and discounted cash flow models, comparison to similar instruments for which market observable prices exist and other valuation models. Assumptions and inputs used in valuation techniques include risk-free and benchmark interest rates, credit spreads and other premia used in estimating discount rates, bonds and equity prices, foreign currency exchange rates, equity and equity index prices volatilities and correlations. The objective of valuation techniques is to arrive at a fair value determination that reflects the price of the financial instruments at the reporting date that would have been determined by market participants acting at arm's length.

Availability of observable market prices and model inputs reduces the need for management judgment and estimation and also reduces the uncertainty associated with determination of fair value. Availability of observable market prices and inputs varies depending on the product and market and is prone to changes based on specific events and general conditions in the financial markets.

Further information about the assumptions made in measuring fair values is included in note 8 to the financial statements.

Notes to the Consolidated and Separate financial statements
for the year ended 31 December 2022

6 Risk management framework

The Company's board of directors has overall responsibility for the establishment and oversight of the company's risk management framework and practices. The board of directors has established the Board Risk Committee, which is responsible for developing and monitoring the company's risk management policies. The committee reports regularly to the board of directors on its activities.

The risk management policies are established to identify and analyse the risk faced by the Company, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Company's activities. The Company through its training and management standards and procedures, aims to maintain a disciplined and constructive central environment in which all employees understand their roles and obligations.

The Board Risk Committee also oversees how management monitors compliance with the Company's risk management policies and procedures, and reviews the adequacy of the risk management framework in relation to the risks faced by the Company. The Board Risk Committee is assisted by the Management Risk Committee and the Internal Audit which undertake both regular and ad hoc review of risk management controls and procedures, the results of which are reported to the Board Risk Committee.

The Group and Company have exposure to the following risks arising from financial transactions:

- Credit risk
- Liquidity risk
- Market risk

(a) Credit Risk

Credit risk is the risk of financial loss to the Group and Company if a customer or counterparty to a financial transaction fails to meet its contractual/financial obligations under the transaction, and arises principally from the Group and Company's receivables from customers and investments in debt securities.

The carrying amounts of financial assets and contract assets represent the maximum credit exposure.

The impairment allowance on financial assets were as follows.

<i>In thousands of Naira</i>	Group 2022	Company 2022	Group 2021	Company 2021
Impairment loss on trade receivables	369,417	369,417	438,680	438,680
Impairment loss on other receivables	70,297	70,297	70,297	70,297
Impairment loss on debt securities at amortised cost	54,637	54,637	47,062	47,062
Impairment loss on debt securities at FVTOCI	600	600	1,676	1,676
Impairment loss on cash and cash equivalent	16,499	16,499	16,041	16,041
	511,450	511,450	573,756	573,756

(i) Trade receivables

The Group's exposure to credit risk is influenced mainly by the individual characteristics of each customer. However, management also considers the factors that may influence the credit risk of its customer base, including the default risk of the industry and country in which customers operate.

The Board Risk Committee has established a credit policy under which each of the Group and Company's customers is analysed individually for creditworthiness before the Group and Company's standard and delivery terms conditions are offered.

Trade receivables that are outstanding for more than 180 days are fully impaired as the Group considers collection of such receivables as doubtful. In monitoring customers' credit risk, customers are grouped according to their credit characteristics, which include bond dealers, legal entities or stockbroking firms.

The Group and Company establishes an allowance for impairment that represents its estimate of expected credit loss model in respect of trade receivables.

As at 31 December 2022, the maximum exposure to credit risk for trade receivables by type of counterparty was as follows:

<i>In thousands of Naira</i>	Notes	Carrying amount		Carrying amount	
		Group	Company	Group	Company
		31-Dec 2022	31-Dec 2022	31-Dec 2021	31-Dec 2021

Expected credit loss assessment as at 1 January and 31 December 2022

Considering the size and lack of complexity in the entity's receivables, CSCS Plc adopted a loss rate approach to determine the expected loss of receivables. The adopted approach uses historical loss experience of the obligor (quoted companies, bond dealers, stockbroking firm, settlement banks). It is based on loss provision over the life of the financial assets to determine the expected loss model as opposed to using separate probability of default (PD), Exposure at Default (EAD) and loss given default (LGD) statistics.

Loss rate model is suitable due to lack of complexity and short term nature of most of the financial assets. The basic steps in determining the expected loss rate using this model are:

- Financial assets are segmented based on credit risk characteristics.
- Loss rate for each financial asset is observed over a period of five years.

The receivable comprises of Bond dealers, Quoted companies, Stock Broking Firm, Settlement Banks and Sales and Business Development customers. Based on the historical data and trend of receivables as well as the macroeconomic data (see table below) for the observable periods, the expected loss rate is estimated based on the average loss rate over the observable periods and adjusting the macro economic impact on the obligor ability to meet his obligation.

As at 31 December 2022, the ageing of trade receivables was as follows:

<i>In thousands of Naira</i>	Weighted-average loss rate	Gross carrying amount	Loss allowance	Credit Impaired
Trade receivables	42%	761,403	(369,417)	Yes
Other receivables	0%	99,718	(70,297)	No
		861,122	(439,714)	

<i>In thousands of Naira</i>	Carrying amount			
	Group	Company	Group	Company
	31-Dec	31-Dec	31-Dec	31-Dec
	2022	2022	2021	2021
Neither past due nor impaired 1 - 30 days	2,039	2,039	2,656	2,656
Neither past due nor impaired 31 - 90 days	59,658	59,658	77,718	77,718
Neither past due nor impaired 91 - 180 days	572,398	572,398	745,674	745,674
Credit impaired	127,308	127,308	162,863	162,863
Total	761,403	761,403	988,911	988,911

Management believes that the unimpaired amounts that are past due by more than 30 days are still collectible in full, based on historical payment behaviour and extensive analysis of customer credit risk.

Notes to the Consolidated and Separate financial statements
for the year ended 31 December 2022

(ii) Debt Securities

The Group and Company limit their exposure to credit risk by investing only in debt securities with counterparties that have a minimum credit rating of BB by reputable rating agency. Management actively monitors credit ratings and ensures that the Group has only made investment in line with the Investment Policy Manual as approved by the Board which provides target allocations in fixed tenured investments.

The Group and Company held total investments of N20,625,616 (at FVOCI - N301,673; at Amortised Cost - N20,323,943) at 31 December 2022 (31 December 2021: N21,621,368 (at FVOCI - N2,301,719; at Amortised Cost - N19,319,649)) which represents its maximum credit exposure on Federal Government Bonds, State Government Bonds, and Corporate Bonds. These investment are measured in accordance with IFRS 9 from January 1, 2022.

As at 31 December 2022, the maximum exposure to credit risk for investments was as follows:

	Notes	FVOCI		Amortised cost		FVOCI	
		Group	Company	Group	Company	Group	Company
		31-Dec	31-Dec	31-Dec	31-Dec	31-Dec	31-Dec

Total	600	600	54,636	54,636	1,676	1,676

(iii) Cash and cash equivalents

The Group held cash and cash equivalents of N15.9billion at 31 December 2022 (31 December 2021: N15.5billion) which represents its maximum credit exposure on these assets. The cash and cash equivalents with maturity profile of less than 3 months, are held with local banks which are rated "BB" by reputable rating agency.

Impairment on cash and cash equivalents has been measured on 12-month expected loss basis and reflects the short maturities of the exposures. The Group considers that its cash and cash equivalents have low credit risk based on the external credit ratings of the counterparties. The impairment allowance on cash and cash equivalent for the year ended 31 December 2022 was N16.5million because of additional impairment charge. (2021: N16.0million)

(iv) Total exposure to credit risk

The Group's exposure to credit risk was as follows:

	Notes	Group	Company	Group	Company
		31-Dec	31-Dec	31-Dec	31-Dec
		2022	2022	2021	2021

(b) Liquidity risk

Liquidity risk is the risk that the Group and Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Group and Company's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risk damage to the Group and Company's reputation.

Impairment on cash and cash equivalents has been measured on 12-month expected loss basis and reflects the short maturities of the exposures. The Group considers that its cash and cash equivalents have low credit risk based on the external credit ratings of the counterparties. The Group did not recognise any impairment allowance on its cash and cash equivalents as at 31 December 2022 (31 December 2021: Nil).

Exposure to Liquidity Risk

The following are the remaining contractual maturities of financial instruments at the reporting date. The amounts are gross and undiscounted and include estimated interest payments and exclude the impact of netting arrangements.

Notes to the Consolidated and Separate financial statements
for the year ended 31 December 2022

(c) Market Risk

Market risk is the risk that changes in market prices such as foreign exchange rates, interest rates and equity prices – will affect the Group and Company's income or value of its holdings of financial instruments. The objective of market risk management is to manage market risk exposures within acceptable parameters, while optimising the return. The Group and Company do not use derivatives to manage market risks.

(i) Currency Risk

The Group and Company is minimally exposed to the financial risk related to the fluctuation of foreign exchange rates. This is so because its revenues, capital expenditures are principally based in Naira. A significant change in the exchange rates between the Naira (₦) (functional and presentation currency) relative to the US dollar would have an insignificant effect on the Group and Company's results of operations, financial position and cash flows. The Group and Company do not enter into any forward exchange contracts to manage the currency risk fluctuations.

The table below summaries the Group and Company's financial instruments at carrying amount, categorised by currency:

The following significant exchange rates have been applied :

	Year end average rate		Year end spot rate	
	2022	2021	2022	2021
USD	430	435	462	435
GBP	529	589	558	589
EUR	452	495	494	495

The Group and Company sources their foreign currency needs from its bankers and licensed bureau de change operator. Based on history and evidence available, foreign currency needs are majorly sourced from the licensed bureau de change operator. Thus the weighted average rate was derived from a weighted average of the various official and autonomous sources rates' applicable at the reporting date.

Foreign exchange risk sensitivity analysis

The Group and Company's exposure to foreign currency risk is largely concentrated in US Dollar. Movement in exchange rate between the US Dollar, and the Nigerian Naira affects reported earnings statement of financial position size through increase or decrease in the remeasured amounts of assets and liabilities denominated in US Dollars.

<i>In thousands of Naira</i>	31 December 2022	31 December 2021
US dollar effect of 10% up or down movement on profit before tax and balance sheet	261,783	544
US dollar effect of 10% up or down movement on equity, net of tax	261,783	544

Notes to the Consolidated and Separate financial statements
for the year ended 31 December 2022

(ii) Interest rate risk

The Group and Company adopt a policy of ensuring that significant percentage of investable funds are invested into fixed rate financial assets (treasury bills, federal government bonds and other bonds) in line with its investment policy. The Group and Company is exposed to interest rate shocks even though most of its investments are on fixed rate to maturity investment, however the Group and Company could still be exposed to interest risk if rate increased higher than the fixed rate. Other areas the Group and Company could be exposed to interest risk is the opportunity cost of market movement.

CSCS conducts sensitivity analysis to reveal or measure the sensitivity of its net interest rate income to shift of rates.

Interest rate profile

At the end of the reporting year the interest rate profile of the Group's interest bearing financial instruments as reported to the Management of the Group are as follows:

<i>In thousands of Naira</i>	Note	Group 2022	Company 2022	Group 2021	Company 2021
Financial instruments					
Cash and cash equivalents	21	11,907,545	11,907,490	11,671,751	11,671,696
Investment securities	17	24,396,079	24,396,079	21,248,233	21,248,233
		36,303,624	36,303,569	32,919,984	32,919,929

Interest rate sensitivity:

The table below shows the impact on the Company's profit before tax if interest rates on financial instruments had increased or decreased by 100 basis points, with all other variables held constant.

<i>In thousands of Naira</i>	Group 2022	Company 2022	Group 2021	Company 2021
Increase in interest rate by 100 basis points (+10%)	363,036	363,036	329,200	329,199
Decrease in interest rate by 100 basis points (-10%)	(363,036)	(363,036)	(329,200)	(329,199)

(d) Equity price risk

The Group manages its capital to ensure that it will be able to continue as going concern while maximizing the return to stakeholders through the optimization of its capital structure.

The capital structure of the Group consist of the following:

- Share capital
- Retained earnings
- Other reserves

Information relating to the Group's Capital Structure is disclosed in Note 25 to the consolidated and separate financial statements.

The Group's risk management committee reviews the capital structure on a semi-annual basis. As part of this review, the committee considers the cost of capital and risks associated with share capital.

Capital risk management

The Group's risk management committee reviews the capital structure on a semi-annual basis. As part of this review, the committee considers the cost of capital and the risks associated with each class of capital. Equity includes all capital and reserves of the company that are managed as capital. The Securities and Exchange Commission ("SEC") sets and monitors capital requirements for all Securities Clearing and Settlement Companies (CSDs). SEC prescribes the minimum capital requirement for a Central Securities Depository (CSD) operating in Nigeria. The minimum capital requirement for a CSD is five hundred million naira (N500,000,000.00). The Group has a total equity of N35.0 billion as at 31 December 2022 (31 December 2021: N33.7 billion). This is well above the minimum capital requirement set by SEC.

7 Segment Reporting

An operating segment is a component of the Group that engages in business activities from which it can earn revenues and incur expenses, including revenues and expenses that relate to transactions with any of the Group's other components, whose operating results are reviewed regularly by the Group's Management Committee (being the chief operating decision maker) to make decisions about resources allocated to each segment and assess its performance, and for which discrete financial information is available.

The Group's Management has considered the nature of product and services in determining the reportable segment of the group.

The Group has three (3) identifiable segments and the following summary describes the operations in each of the these segments.

- i Operations: This Segment provides clearing and settlement services in regard to equities and other securities types including commercial papers traded on other recognized Exchange Platforms in the Nigerian Capital Market. Revenue recognised in this segment are revenues from core activities in note 9 of the financial statements and other income.
- ii Product and Services: This segment provides secondary data storage and disaster recovery in event of data loss to companies. It also stores securities used as collateral for credit facilities by companies. Revenue recognised in this segment are revenues from non core activities in note 9 of the financial statements.
- iii Treasury: This segment is responsible for investments and management of the Group's liquidity ensuring a balance between liquidity and profitability.

(ii) Long Term Incentive Scheme is a defined benefit (as approved by the Board). See Note 29 for details.

(iii) The Company operates a funded defined contribution retirement scheme for its employees under the provision of the Pension Reform Act of 2014. The employer contributes 10% while the employee contributes 8% of the qualifying employee's salary. The Company does not have any additional legal or constructive obligation to pay further contributions if the Pension Fund Administrators do not hold sufficient assets to pay all employee benefits relating to employee service in the current and prior years.

12.1(ii) Employee Information:

(a) The average number of persons in employment during the year were as follows:

	Group	Company	Group	Company
	31 December 2022	31 December 2022	31 December 2021	31 December 2021
3				
Executive Directors	2	2	1	1
Management	5	5	5	5
Non-management	98	98	104	104
	105	105	110	110

(b) The Directors who received fees and other emoluments (excluding pension contributions and reimbursable expenses) were:

<i>In thousands of Naira</i>	Group	Company	Group	Company
	31 December 2022	31 December 2022	31 December 2021	31 December 2021
Chairman	12,917	12,917	12,917	12,917
Other non-executive Directors	127,073	127,073	138,500	138,500
	139,990	139,990	151,417	151,417

The Directors remuneration as shown above includes:

<i>In thousands of Naira</i>	Group	3-Feb	Group	Company
	31 December 2022	31 December 2022	31 December 2021	31 December 2021
The Chief Executive Officer	186,898	186,898	108,068	108,068
The highest paid Director	186,898	186,898	108,068	108,068

(c) The number of Directors who received fees and other emoluments (excluding pension contributions and reimbursable expenses) in the following ranges was:

	Group	Company	Group	Company
	31 December 2022	31 December 2022	31 December 2021	31 December 2021
N1,000,000 - N5,000,000	3	3	3	3
N5,000,001 and above	8	8	8	8
	11	11	11	11

Notes to the Consolidated and Separate financial statements
for the year ended 31 December 2022

- (d) The employees of the Group, other than Directors, who received remuneration in the following range (excluding pension contributions and other benefits) were:

	Group 31 December 2022	Company 31 December 2022	Group 31 December 2021	Company 31 December 2021
N60,000 - N1,000,000	-	-	-	-
N1,000,001 - N3,000,000	1	1	7	7
N3,000,001 - N6,000,000	22	22	50	50
N6,000,001 - N9,000,000	31	31	20	20
N9,000,001 and above	51	51	33	33
	105	105	110	110

12.2 Other operating expenses

<i>In thousands of Naira</i>	Group 31 December 2022	Company 31 December 2022	Group 31 December 2021	Company 31 December 2021
Maintenance expenses	41,369	41,369	31,470	31,470
Office running expenses (see note (a) below)	453,734	453,734	231,076	231,076
Business development (see note (b) below)	1,030,598	1,030,598	721,390	721,390
Board of Directors fees	139,990	139,990	151,417	151,417
Board of Directors expenses	510,183	510,183	375,755	375,755

29 Pension plan and other employment benefits

29.1 Defined contribution plan

All the employees of the Group qualify for the contributory pension scheme of Nigeria. The Group is required to contribute a specified percentage of payroll costs to the retirement benefit scheme to fund the benefits. The only obligation of the Group with respect to the retirement benefit plan is to make the specified contributions. Pension contribution of a percentage of employees emoluments (10% by the employer and 8% by the employees) are made in accordance with the Pension Reform Act 2014.

The total expense recognized in profit or loss was N115.55 million for the Group and N115.55 million for the Company (2021: N98.77 million for the Group and N98.77 million for the Company) represent contributions payable to these plans by the Group and Company at the rates specified in accordance with the Pension Reform Act 2014 (amended).

29.2 Long term incentive scheme

The Managing Director is entitled to a defined benefit (as approved by the Board) upon his exit and the expiration of his employment with the Group. The defined benefit shall be 33% of his annual benefit which shall be provided and reported in the Group's yearly financial account. Actuarial valuation of the benefit liabilities of the Managing Director was carried out by O & A Hedge Actuarial Consulting, a firm of certified actuaries with FRC number FRC/2019/00000012909. The valuation report was signed by Layemo B Abraham with FRC number FRC/2016/NAS/00000015764. As at 31 December 2022, the amount provided is N65.55 million.

The sum of the outstanding long- term severance benefit scheme and the terminal benefit provided for is N12.8 million and this has been included in long term incentive scheme liabilities below.

Analysis of the amount charged to statement of profit or loss and other comprehensive income and statement of financial position for the prior year is shown below:

(i) Per statement of profit or loss and other comprehensive income

The long term incentive scheme liability is made up of:

29.2 Long term incentive scheme - Continued

(ii) Actuarial assumptions

The following were the principal actuarial assumptions at the reporting date (expressed as weighted averages):

	Group 31 December 2022	Company 31 December 2022
Future salary growth	13.00%	13.00%
Interest rate	12.79%	12.10%

Sensitivity analysis

Reasonably possible changes at the reporting date to one of the relevant actuarial assumptions, holding other assumptions constant, would have affected the defined benefit obligation by the amount shown below.

<i>In thousands of naira</i>	benefit obligation	+1%	-1%
Interest rate (movement)	65,554	66,209	64,898
Salary increase rate (movement)	65,554	66,209	64,898

30 Events after the reporting date

There are no events after the reporting date events that could have had a material effect on the financial position and performance of the Group and Company as at 31 December 2022 which have not been adequately provided for or disclosed.

31 Contingent liabilities

There are pending litigations for which no judgment has been entered against the Company, some of which the Company is only a nominal party. Contingent liability as at 31 December 2022 stood at N2,603,802,630.63 (31 December 2021: N2,603,802,630.63). However, the directors are of the opinion that the various suits will not succeed against the Company.

32 Capital commitments

The Directors are of the opinion that all known liabilities and commitments which are relevant in assessing the state of affairs of the Group and Company have been taken into account in the preparation of the consolidated and separate financial statements.

33 Related Parties

Parties are considered to be related if one party has the ability to control the other party or exercise influence over the other party in making financial and operational decisions, or one other party controls both. The definition includes subsidiaries, associates, joint ventures, as well as key management personnel.

Associate

Transactions with Nigerian Exchange Limited also meet the definition of related party transactions, as Central Securities Clearing System Plc is an associate of Nigerian Exchange Limited. The transactions includes: rent and x-alert handling charges held by CSCS on behalf of Nigerian Exchange Limited.

			Transaction values		Balance outstanding		
			31 December 2022	31 December 2021	31 December 2022	31 December 2021	
<i>In thousands of Naira</i>	Name of company / Individual	Transaction type	Secured/Unse	Amount	Amount	Amount	Amount

				1,187,580	1,794,721	-	-

Transactions with key management personnel

The Company's key management personnel, and persons connected with them, are also considered to be related parties. The definition of key management includes the close members of family of key personnel and any entity over which key management exercise control. The key management personnel have been identified as the executive and non-executive directors of the Group. Close members of family are those family members who may be expected to influence, or be influenced by those individuals in their dealings with the Group.

Notes to the Consolidated and Separate financial statements
for the year ended 31 December 2022

33 Related Parties - Continued

Key management personnel compensation

Compensation to the Company's key management personnel include salaries, non-cash benefits and contributions to the post-employment defined contribution plans.

Executive directors are subject to a mutual term of notice of 3 months. Upon resignation at the Company's request, they are entitled to termination benefits of up to 12 months' total remuneration. If they resign on their own they receive 50% of their salary and an additional 20% for each year in service.

(a) Key management personnel compensation comprise:

<i>In thousands of Naira</i>	31 December 2022	31 December 2021
Short term		
Wages & Salaries	523,661	609,377
Long term		
Post Employment benefits	52,735	12,819
	<u>576,396</u>	<u>622,196</u>

(b) Directors' remuneration

<i>In thousands of Naira</i>	31 December 2022	31 December 2021
Short term		
Fees as Directors	12,917	12,917
Directors sitting allowances	52,663	54,000
Other allowances	192,783	192,783
	<u>258,363</u>	<u>259,700</u>
Executive Compensation	576,396	622,196
	<u>834,759</u>	<u>881,896</u>

Compensation of the Company's key management personnel includes salaries, non-cash benefits and contributions to a post-employment defined benefit plan (see notes 12.1 and note 29).

Key management personnel and director transactions

The value of transactions with key management personnel and entities over which they have control or significant influence were as follows:

Income

Included in income is an amount of N69.8 million (31 December 2021: N81.5 million) representing depository fees, eligibility fees, settlement participation fees, OTC Transactions earned by CSCS from companies in which certain Directors have interests. The details of the income as well as the balances outstanding in receivables as at 31 December 2021 were as follows:

- 36(a)** In the current year, the Group presented income derived from its non-core activities under revenue in the *Consolidated and Separate Statements of Profit or Loss and other Comprehensive Income* (2021: presented under other income). Income recognised on non-core activities are from contract with customers and are therefore accounted for using relevant guidance of IFRS 15 *Revenue from contracts with customers*. The Group has therefore re-presented income from non-core activities to revenue in the current year to enhance inter-period comparability.
